

X2 s18i M Sport X.

New car

Technical data

Motor: 103 kW (140 hp), 220 N.m. @1,480-4,200 rpm, 0-100km/h in 9.6 sec.

Cylinder/cubic capacity: 3 /1,499 cc.

Transmission: 7-Speed Steptronic transmission with dual clutch (DCT)

Doors/Seats: 5/5

Luggage Compartment Capacity: 470l.

Upholstery: Sensatec Leather (Oyster/ Black)

Standard equipment

M Sport X package
M aerodynamics package
M Leather Steering Wheel
M rear Spoiler
LED Headlights with extended contents
LED Fog Lights
Servotronic
Park Distance Control, rear
Storage compartment package
BMW Apps
Radio BMW Professional
6.5" Display Screen
Multi-Function Steering Wheel
Int. rear-view mirror with anti-dazzle function
Sport Seats for driver and front passenger
Automatic Air Conditioning
Extended Bluetooth connectivity
Rain Sensor and Automatic Driving Lights
Black high gloss window trim
Front arm rest
USB

BMW Individual headliner Anthracite
Interior trim Aluminium Hexagon Anthracite
Ambient light package
Rear back seat foldable 40:20:40
Panorama glass roof
Smoker's Package
Cup holders
Warning Triangle and First Aid Kit
Brake Energy Regeneration
Cruise Control with braking function
Attentiveness assistant
Dynamic Stability Control (DSC)
Anti-lock Braking System (ABS)
Cornering Brake Control (CBC)
Driving Experience Control with ECO pro
19" M light alloy wheels Y-spoke style 722M
8J x 19 / tyres 225/45 R 19
Run Flat Tires

Warranty

2 years guarantee with unlimited mileage

List price

EGP 700,000

Information on fuel consumption, CO₂ emissions and energy consumption according to the German Ordinance on Energy Consumption Labelling for Passenger Cars

Brand: BMW
Model: X2 s18i.
Performance: 103 kW

Fuel type: Octane 92 – octane 95
Other energy sources: -
Kerb weight: 1,420 kg

Fuel consumption

combined: 7.6-6.3 l / 100 km

CO₂ emissions

combined: 144-129 g / km

The stated values were determined according to the prescribed measurement process (Section 2, Nos. 5, 6, 6a of the German Ordinance on Energy Consumption Labelling for Passenger Cars in the current valid version). CO₂ emissions resulting from the production and provision of the fuel or other energy sources are not taken into account when determining the CO₂ emissions in accordance with the requirements of Directive 1999/94/EC. The information does not refer to an individual vehicle and is not part of the offer but rather is used solely for comparison purposes between different vehicle types. The fuel consumption and emission levels stated here refer to a vehicle from the current production run. Until your desired delivery date, changes may occur in the production run that may affect the weight, aerodynamics or tyre rolling resistance of the vehicle, possibly altering its fuel consumption and CO₂ emissions by an increase or decrease of up to 5g/km.

Information in accordance with directive 1999/94/EC

The fuel consumption and CO₂ emissions of a vehicle are not solely dependent on the vehicle's fuel efficiency, but are also influenced by driving style and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming. A guideline for the fuel consumption and CO₂ emissions of all passenger car models offered in Germany can be obtained free of charge, anywhere in Germany where new passenger car models are displayed and offered.
