

218i Gran Tourer.

New car

Technical data

Motor: 103 kW (140 hp), 220 N.m. @1,480-4,200 rpm, 0-100km/h in 9.8 sec.

Cylinder/cubic capacity: 3 /1,499 cc.

Transmission: 7-Speed Steptronic transmission with dual clutch (DCT)

Doors/Seats: 5/7

Luggage Compartment Capacity: 560l.

Upholstery: Sensatec leather Black

Standard equipment

LED headlights	HiFi loudspeaker system (7 speakers, 205W)
LED fog lights	Interior trim finishers black high-gloss with highlight trim finisher Pearl Chrome
Rear view camera	Lights Package
Park Distance Control, rear	Floor mats in velour
Panoramic Sunroof	Storage Compartment Package
Chrome line exterior	ISOFIX Child seat attachment
Sun protection glazing	Warning Triangle & first Aid kit
Automatic operation of tailgate	Smoker's Package
Sports Leather Steering Wheel	Rain & Light sensor
Multifunction Steering Wheel	Performance Control
Cruise Control with braking function	Servotronic
Int. & ext. mirrors with auto anti-dazzle function	Airbags for driver and front passenger (6 Airbags)
Automatic air conditioning	Dynamic Stability Control (DSC)
Power Socket (12V)	Anti-lock Braking System (ABS)
3rd row seats	Brake Energy Regeneration
Front arm rest	Locking Wheel bolts
Rear seats adjustment	Runflat tires
BMW radio professional (6.5" screen)	16" light alloy wheels Double-spoke style 473
CD player	7J x 16 / tyres 205/60 R 16
Bluetooth Audio Streaming	
BMW Apps	

Warranty

2 years guarantee with unlimited mileage

List price

EGP 620,000

Information on fuel consumption, CO₂ emissions and energy consumption according to the German Ordinance on Energy Consumption Labelling for Passenger Cars

Brand: BMW	Fuel type: Octane 92 – octane 95
Model: 218i Gran Tourer.	Other energy sources: -
Performance: 103 kW	Kerb weight: 1,490 kg

Fuel consumption	combined: 8.1-6.7 l / 100 km
-------------------------	-------------------------------------

CO₂ emissions	combined: 185-154 g / km
---------------------------------	---------------------------------

The stated values were determined according to the prescribed measurement process (Section 2, Nos. 5, 6, 6a of the German Ordinance on Energy Consumption Labelling or Passenger Cars in the current valid version). CO₂ emissions resulting from the production and provision of the fuel or other energy sources are not taken into account when determining the CO₂ emissions in accordance with the requirements of Directive 1999/94/EC. The information does not refer to an individual vehicle and is not part of the offer but rather is used solely for comparison purposes between different vehicle types. The fuel consumption and emission levels stated here refer to a vehicle from the current production run. Until your desired delivery date, changes may occur in the production run that may affect the weight, aerodynamics or tyre rolling resistance of the vehicle, possibly altering its fuel consumption and CO₂ emissions by an increase or decrease of up to 5g/km.

Information in accordance with directive 1999/94/EC

The fuel consumption and CO₂ emissions of a vehicle are not solely dependent on the vehicle's fuel efficiency, but are also influenced by driving style and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming. A guideline for the fuel consumption and CO₂ emissions of all passenger car models offered in Germany can be obtained free of charge, anywhere in Germany where new passenger car models are displayed and offered.
