

# X1 s18i LCI xLine.

## New car

### Technical data

**Motor:** 103 kW (140 hp), 220 N.m. @1,480-4,200 rpm, 0-100km/h in 9.6 sec.

**Cylinder/cubic capacity:** 3 /1,499 cc.

**Transmission:** 7-Speed Steptronic transmission with dual clutch (DCT)

**Doors/Seats:** 5/5

**Luggage Compartment Capacity:** 505l.

**Upholstery:** Sensatec Leather (Oyster/Black)

### Standard equipment

xLine Design Package

LED Headlights

LED Foglights

Roof Rails Aluminum Satinated

Exterior trim in satinised aluminum

Park Distance Control (PDC), rear

Sports leather Steering Wheel

Multifunction Steering Wheel

Cruise control with braking function

Front armrest

Comfort access

Automatic air conditioning

Navigation System

8.8" touch screen

5.7" instrument cluster

Apple CarPlay®

Bluetooth Audio Streaming

Lights Package

CD Player

BMW Apps

Exterior mirror package

Interior trim finishers black high-gloss

with Highlight trim finishers Pearl Chrome

Rear backrest, foldable and 40:20:40

Child seat ISOFIX attachment

Storage compartment package

Warning triangle

Smoker's package

Rain Sensor

Servotronic

Performance control

Attentiveness Assist

Dynamic Brake Control (DBC)

Dynamic Stability Control (DSC)

Anti-lock Braking System(ABS)

Driving Experience Control with ECO pro

18" light alloy wheels Y-spoke style 579 Bicolour

Burnished orbit grey

7.5J x18 / tyres 225/50 R18,

Runflat Tires with runflat indicator

### Warranty

2 years guarantee with unlimited mileage

### List price

**EGP 660,000**

# Information on fuel consumption, CO<sub>2</sub> emissions and energy consumption according to the German Ordinance on Energy Consumption Labelling for Passenger Cars

---

**Brand:** BMW  
**Model:** X1 s18i.  
**Performance:** 103 kW

**Fuel type:** Octane 92 – octane 95  
**Other energy sources:** -  
**Kerb weight:** 1,400 kg

---

**Fuel consumption**

**combined:** 6.3-5.6 l / 100 km

---

**CO<sub>2</sub> emissions**

**combined:** 144-129 g / km

---

The stated values were determined according to the prescribed measurement process (Section 2, Nos. 5, 6, 6a of the German Ordinance on Energy Consumption Labelling for Passenger Cars in the current valid version). CO<sub>2</sub> emissions resulting from the production and provision of the fuel or other energy sources are not taken into account when determining the CO<sub>2</sub> emissions in accordance with the requirements of Directive 1999/94/EC. The information does not refer to an individual vehicle and is not part of the offer but rather is used solely for comparison purposes between different vehicle types. The fuel consumption and emission levels stated here refer to a vehicle from the current production run. Until your desired delivery date, changes may occur in the production run that may affect the weight, aerodynamics or tyre rolling resistance of the vehicle, possibly altering its fuel consumption and CO<sub>2</sub> emissions by an increase or decrease of up to 5g/km.

## Information in accordance with directive 1999/94/EC

The fuel consumption and CO<sub>2</sub> emissions of a vehicle are not solely dependent on the vehicle's fuel efficiency, but are also influenced by driving style and other non-technical factors. CO<sub>2</sub> is the greenhouse gas primarily responsible for global warming. A guideline for the fuel consumption and CO<sub>2</sub> emissions of all passenger car models offered in Germany can be obtained free of charge, anywhere in Germany where new passenger car models are displayed and offered.
