

i8 Roadster .

New car

Technical data

Motor: 275 kW (374 hp accumulative), 570 N.m. (accumulative), 0-100km/h in 4.6 sec.

Cylinder/cubic capacity: 3/1,499.

Transmission: 6-Speed Automatic transmission with gearshift paddles.

Doors/Seats: 2/4

Luggage Compartment Capacity: 88l.

Upholstery: Leather exclusive E-copper combination Anthracite

Standard equipment

BMW Laser lights	Ceramic Surround for Controls
High Beam Assist	Harman Kardon surround sound system
Door sill finishers with i8 designation	BMW i interior design Accaro
Brake Calipers i design	Instrument panel in leather 'Walknappa'
Park Distance Control front and rear	Interior trim finishers 'DryCarbon'
Adaptive Suspension	Locking wheel bolts
Comfort Access	Floor mats in velour
Multi-Functional Instrument Display	Smoker's Package
BMW Display Key	Cup holders
Multi-Function Steering Wheel	Front armrest
Navigation System Professional	Warning Triangle and First Aid Kit
8.8" Display Touch Screen	Brake Energy Regeneration
20 GB hard drive	Cruise Control with braking function
BMW Apps	Acoustic protection for pedestrians
i-Drive touch Controller	Driving Assistant
Head-up Display	Attentiveness Assist
Lights package	Dynamic Stability Control (DSC)
Sport Seats Electric Adjustment with memory	Anti-lock Braking System(ABS)
Dual zone Automatic Air Conditioning	Cornering Brake Control (CBC)
Extended Bluetooth connectivity	Driving Experience Control with ECO pro
Rain Sensor and Automatic Driving Lights	20" BMW i light alloy wheels Radial spoke style
Interior & exterior mirror with anti-dazzle Function	516, front: 7.5 J x 20 / tyres 215/45 R 20
Shadow line	rear: 8.5 J x 20 / tyres 245/40 R20
Tyre repair kit	

Warranty

2 years guarantee with unlimited mileage

8 Years/100.000 km battery warranty

List price

EGP 2,990,000

Information on fuel consumption, CO₂ emissions and energy consumption according to the German Ordinance on Energy Consumption Labelling for Passenger Cars

Brand: BMW	Fuel type: -
Model: i8 Roadster.	Other energy sources: -
Performance: 275 kW	Kerb weight: 1,595 kg

Fuel consumption	combined: - l / 100 km
-------------------------	-------------------------------

CO₂ emissions	combined: - g / km
---------------------------------	---------------------------

Energy consumption	combined: - kWh / 100 km
---------------------------	---------------------------------

The stated values were determined according to the prescribed measurement process (Section 2, Nos. 5, 6, 6a of the German Ordinance on Energy Consumption Labelling for Passenger Cars in the current valid version). CO₂ emissions resulting from the production and provision of the fuel or other energy sources are not taken into account when determining the CO₂ emissions in accordance with the requirements of Directive 1999/94/EC. The information does not refer to an individual vehicle and is not part of the offer but rather is used solely for comparison purposes between different vehicle types. The fuel consumption and emission levels stated here refer to a vehicle from the current production run. Until your desired delivery date, changes may occur in the production run that may affect the weight, aerodynamics or tyre rolling resistance of the vehicle, possibly altering its fuel consumption and CO₂ emissions by an increase or decrease of up to 5g/km.

Information in accordance with directive 1999/94/EC

The fuel consumption and CO₂ emissions of a vehicle are not solely dependent on the vehicle's fuel efficiency, but are also influenced by driving style and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming. A guideline for the fuel consumption and CO₂ emissions of all passenger car models offered in Germany can be obtained free of charge, anywhere in Germany where new passenger car models are displayed and offered.
